

# Antennas

Replacement antenna and masts

Roof mount, body mount, screen mount antennas

Antenna amplifiers and DAB solutions

**70-601**  
23cm anti noise mast

23cm replacement antenna mast  
Anti wind noise design  
Includes 5mm and 6mm screw studs

**70-602**  
43cm anti noise mast

43cm replacement antenna mast  
Anti wind noise design  
Includes 5mm and 6mm screw studs

**70-607**  
Metal 2 section mast

Metal replacement antenna mast  
2 section  
35-57cm mast length  
Comes with 5mm and 6mm screw studs  
Black finish

**70-900**  
Chrome wing antenna

4 Section chrome wing antenna  
120cm screw-on cable to DIN antenna connector  
Mast extends to 82cm length

**70-901**  
Black wing antenna

4 Section black wing antenna  
120cm screw-on cable to DIN antenna connector  
Mast extends to 82cm length

**70-903**  
Roof mount antenna, oval base

Roof mount antenna with 230cm antenna cable  
Black 36cm fibre glass mast  
Oval base  
Adjustable angle

**70-904**  
Roof mount antenna, square base

Roof mount antenna with 230cm antenna cable  
Black metal mast extends from 34cm to 57cm  
Square base  
Adjustable angle

**70-906**  
Roof mount rubber antenna, round base

Roof mount rubber antenna with 230cm antenna cable  
Round base  
35cm mast length  
Flexible and durable design

**70-907**

Roof mount antenna 60°

Roof mount antenna with 450cm antenna cable  
41cm no wind noise mast  
60° angle

**70-908**

Roof mount active antenna 75°

Roof mount antenna with 450cm cable  
41cm no wind noise mast  
75° angle

**70-909**

Roof mount active antenna 60°

Roof mount AM/FM active antenna for stronger signal  
450cm cable includes extra wire for power  
41cm no wind noise mast  
60° angle

**70-910**

Roof mount PSA group active antenna

Roof mount AM/FM active antenna  
450cm cable extension includes extra wire for power  
41cm no wind noise mast  
PSA group style mounting base

70-911

Hirschman Auta 3000 Flex

Universal Hirschmann Auta 3000 Flex body mount car antenna

47cm mast length

1.3m antenna cable

Black fibre glass low noise mast

70-912

Hirschmann Auta 2050 electric antenna

Universal Hirschmann Auta 2050 electric body mount car antenna

98cm mast length

1.5m antenna cable

70-914

DAB, AM/FM active combiflex antenna

High performance amplified DAB, AM and FM active antenna

2x 5m extension leads

10 dB gain for strong DAB and FM signal

23cm mast length

Includes DIN connection for AM/FM and SMB connection for DAB

70-915K

DAB, AM/FM and GPS active combiflex antenna

High performance amplified DAB, AM/ FM and GPS active antenna

3x 5m extension leads

10 dB gain for strong DAB signal

23cm mast length

Includes DIN connection for AM/FM, SMB connection for DAB and Fakra connection for GPS

**70-916**

**DAB magnetic mount antenna**

Magnetic mounting DAB whip antenna

2dB signal gain

3m cable terminated with female SMB right angle connector

27cm mast length

For best performance mount the antenna on the roof of a metal body car

Can also be hidden inside and mounted to the cars chassis

**70-917K**

**DAB, AM/FM active shark fin antenna**

High performance amplified DAB, AM and FM active shark fin antenna

2x 5m extension leads

20 dB gain for strong DAB and FM signal

Includes DIN connection for AM/FM and SMB connection for DAB

**70-918K**

**DAB, AM/FM and GPS active shark fin antenna**

High performance amplified DAB, AM/FM and GPS active shark fin antenna

3x 5m extension leads

20 dB gain for strong DAB and FM signal

Includes DIN connection for AM/FM, SMB connection for DAB and Fakra connection for GPS

**70-920**

**Screen mount AM/FM amplified antenna**

Internal windscreen mount AM/FM active antenna

Amplified for stronger signal

225cm cable length

**70-921**

**Screen mount AM/FM amplified antenna**

Internal windscreen mount AM/FM active antenna  
Amplified for stronger signal  
225cm cable length

**70-923**

**DAB screen mount active antenna +3dB**

Internal glass mount DAB active antenna  
3m cable to right angle SMB DAB connector  
Amplified antenna with 3dB gain for stronger signal

**70-924**

**DAB screen mount active antenna +11dB**

High performance internal glass mount DAB active antenna  
3m cable to right angle SMB DAB connector  
Amplified antenna with 11dB gain for stronger signal

**70-925**

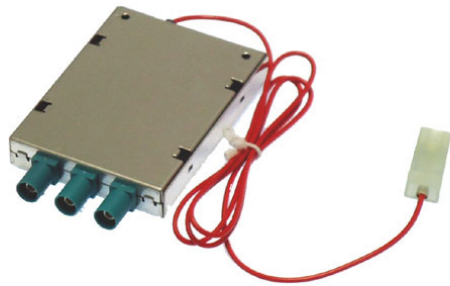

**DAB external glass mount active antenna +15dB**

External glass mount high performance DAB active antenna  
Internal mounting receiver links to the external antenna through the glass  
3m cable with right angle SMB DAB connector  
Amplified antenna with 15bD gain for strong signal  
26cm mast length  
Adjustable mast angle

## 70-926

DAB and FM signal amplifier splitter

High performance DAB and FM signal amplifier splitter

For use with passive antennas or active antennas that do not filter above 110MHz

This interface amplifies the original signal so a strong DAB signal can be extracted

Interface has male Fakra connectors, additional adapter leads are required

## 70-926-D

DAB and FM signal amplifier splitter, DIN connections

High performance DAB and FM signal amplifier splitter with DIN antenna connections

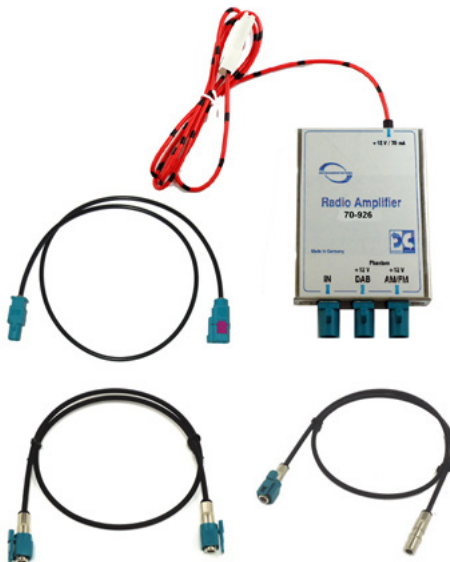

For use with passive antennas or active antennas that do not filter above 110MHz

This interface amplifies the original signal so a strong DAB signal can be extracted

Includes male and female DIN adapter cables and a SMB DAB adapter cable

## 70-926-F

DAB and FM signal amplifier splitter, Fakra connections

High performance DAB and FM signal amplifier splitter with Fakra antenna connections

For use with passive antennas or active antennas that do not filter above 110MHz

This interface amplifies the original signal so a strong DAB signal can be extracted

Includes male and female Fakra adapter cables and a SMB DAB adapter cable

## 70-926-I

DAB and FM signal amplifier splitter, ISO connections

High performance DAB and FM signal amplifier splitter with ISO antenna connections

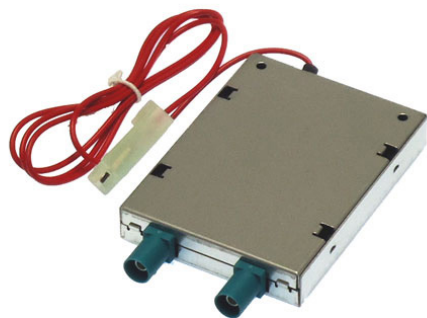

For use with passive antennas or active antennas that do not filter above 110MHz

This interface amplifies the original signal so a strong DAB signal can be extracted

Includes male and female ISO adapter cables and a SMB DAB adapter cable

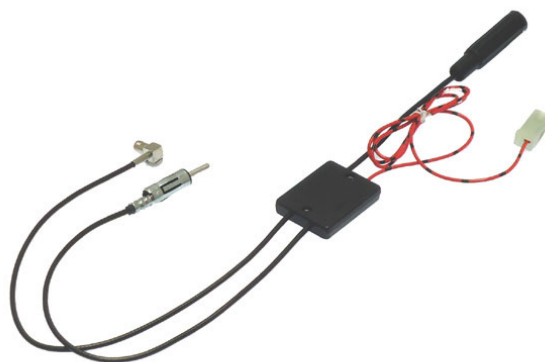

## 70-927 DAB signal amplifier

High performance DAB signal amplifier interface  
For use with passive antennas or active antennas that do not filter above 110MHz  
This interface amplifies the original signal and gives out an amplified DAB signal  
Male Fakra connectors on the interface, additional adapter cables are required

## 70-928 DAB antenna amplifier splitter

DAB antenna amplifier splitter designed to work with passive antennas or active antennas that do not filter above 110MHz  
Amplifies the standard signal and extracts a DAB signal  
Male to female DIN antenna connectors and a SMB DAB connector

## 70-930 GPS internal mount antenna

Internal mount GPS antenna  
5m antenna cable  
SMA screw fit male connector

## 70-952 High performance roof mount antenna

High performance roof mount antenna  
Designed for best performance when used with a signal amplifier or DAB amplified splitter interface  
23cm mast length  
Adjustable angle  
Female Fakra connection, additional extension cables are required
