

FK-106
Audi A3 96-00 single din fitting kit

Complete fitting kit to install a single DIN head unit into a 96-00 model Audi A3

- This kit includes:
- Fascia
 - Antenna adapter
 - ISO harness
 - Release keys

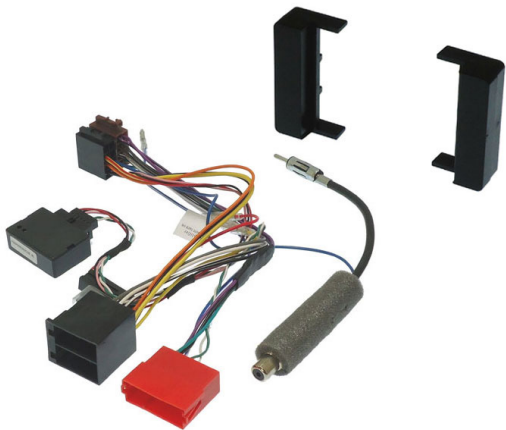

FK-108
Audi A2, A4, A6 single din fitting kit

Complete fitting kit to install a single DIN head unit into an Audi to replace standard Chorus or Concert radio.

- This kit includes:
- Fascia
 - Antenna adapter
 - ISO for active rear speakers
 - Release keys

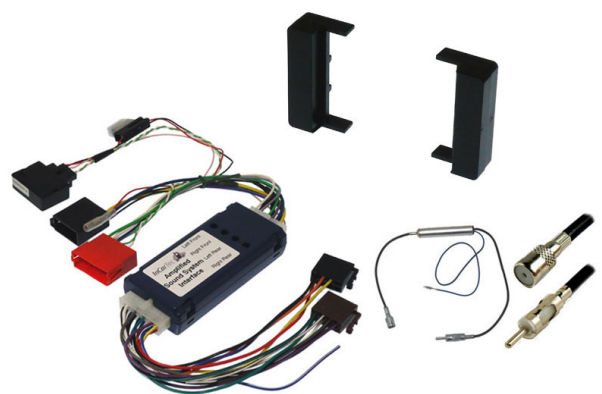

FK-109-IGN
Audi TT 8N fitting kit rear amplified CAN ignition

Complete fitting kit to install a single DIN head unit in an Audi TT 8N with amplified rear speakers.

- This kit includes:
- Fascia
 - CAN ignition interface
 - Amplified speaker adapter
 - Antenna adapter

FK-109FA-IGN
Audi TT 8N fitting kit fully amp CAN ignition

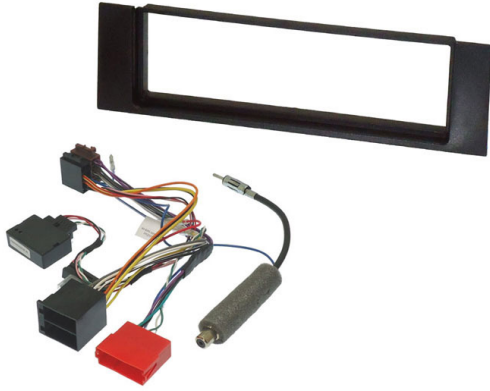

Complete fitting kit to install a single DIN head unit in an Audi TT 8N with fully amplified speakers.

- This kit includes:
- Fascia
 - CAN ignition interface
 - Amplified speaker adapter
 - Antenna adapter

FK-110-IGN

Audi A4 B6 single din kit rear amp CAN ignition

Complete fitting kit to install a single DIN head unit in an Audi A4 B6 with amplified rear speakers.

This kit includes:

- Fascia
- CAN ignition interface
- Amplified speaker adapter
- Antenna adapter

FK-110FA-IGN

Audi A4 B6 single din kit fully amp CAN ignition

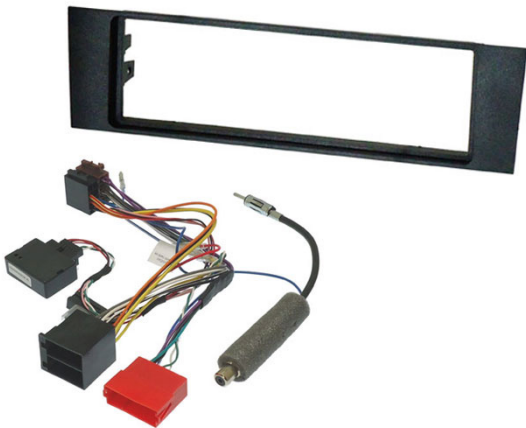

Complete fitting kit to install a single DIN head unit in an Audi A4 B6 with fully amplified speakers.

This kit includes:

- Fascia
- CAN ignition interface
- Amplified speaker adapter
- Antenna adapter

FK-111-IGN

Audi A3 8P fitting kit rear amplified CAN ignition

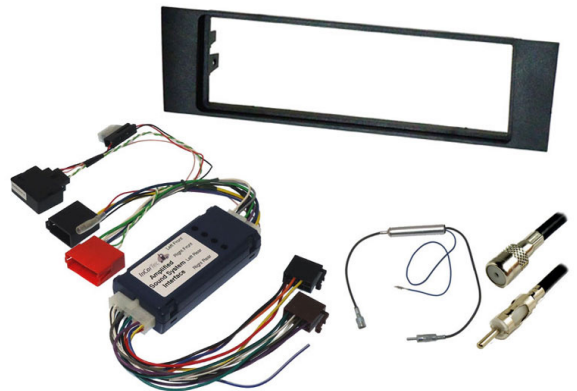

Complete fitting kit to install a single DIN head unit in an Audi A3 8P with amplified rear speakers.

This kit includes:

- Fascia
- CAN ignition interface
- Amplified speaker adapter
- Antenna adapter

FK-111FA-IGN

Audi A3 8P fitting kit fully amp CAN ignition

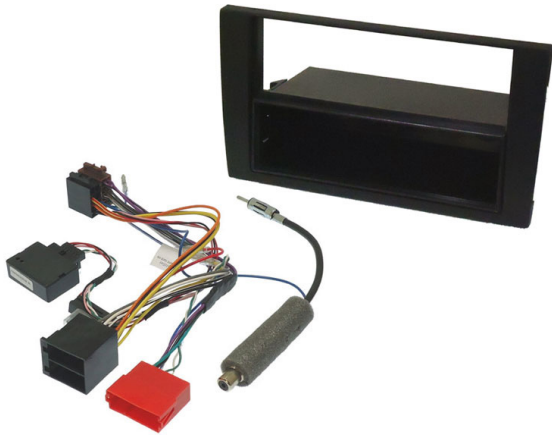

Complete fitting kit to install a single DIN head unit in an Audi A3 8P with fully amplified speakers.

This kit includes:

- Fascia
- CAN ignition interface
- Amplified speaker adapter
- Antenna adapter

FK-112-IGN

Audi A4 B6 fitting kit rear amplified CAN ignition

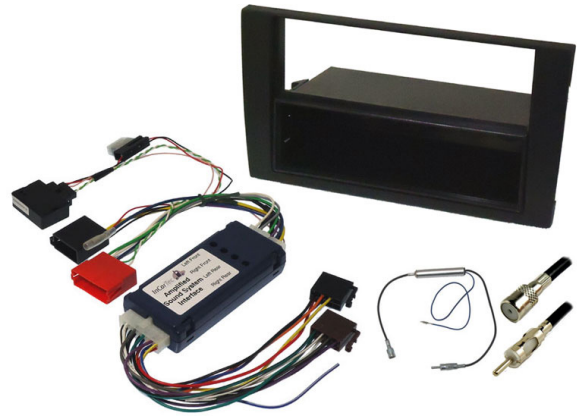

Complete fitting kit to install a single or double DIN head unit in an Audi A4 B6 with amplified rear speakers.

This kit includes:

- Fascia
- CAN ignition interface
- ISO harness
- Antenna adapter

FK-112FA-IGN

Audi A4 B6 fitting kit fully amp CAN ignition

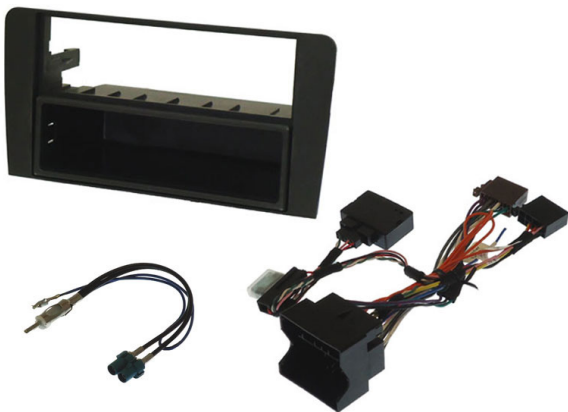

Complete fitting kit to install a single or double DIN head unit in an Audi A4 B6 with fully amplified speakers.

This kit includes:

- Fascia
- CAN ignition interface
- ISO harness
- Antenna adapter

FK-271-IGN

Audi A3 8P fitting kit rear amplified CAN ignition

Complete fitting kit to install a single or double DIN head unit in an Audi A3 8P facelift with amplified rear speakers.

This kit includes:

- Fascia
- CAN ignition interface
- Quadlock to ISO harness
- Antenna adapter

FK-271-SWC

Audi A3 8P fitting kit, SWC rear amplified

Complete fitting kit to install a single or double DIN head unit and retain the original steering wheel controls in an Audi A3 8P facelift with amplified rear speakers

This kit includes:

- Fascia
- Steering wheel control interface
- Universal patch lead
- Antenna adapter

FK-271FA-IGN

Audi A3 8P fitting kit fully amp CAN ignition

Complete fitting kit to install a single or double DIN head unit in an Audi A3 8P facelift with fully amplified speakers.

This kit includes:

- Fascia
- CAN ignition interface
- Quadlock to ISO harness
- Antenna adapter

FK-271FA-SWC

Audi A3 8P fitting kit, SWC fully amplified

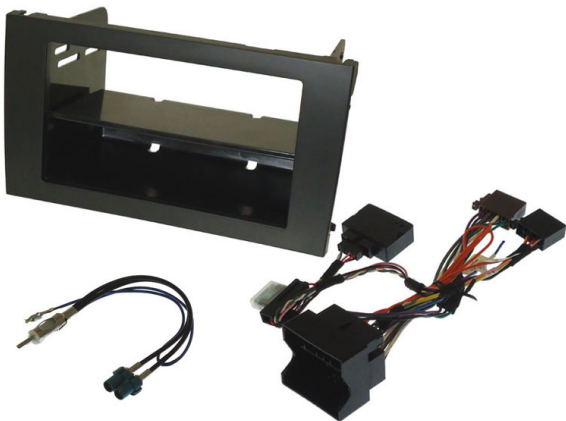

Complete fitting kit to install a single or double DIN head unit and retain the original steering wheel controls in an Audi A3 8P facelift with fully amplified speakers

This kit includes:

- Fascia
- Steering wheel control interface
- Universal patch lead
- Antenna adapter

FK-314-IGN

Audi A4 B7 fitting kit rear amplified CAN ignition

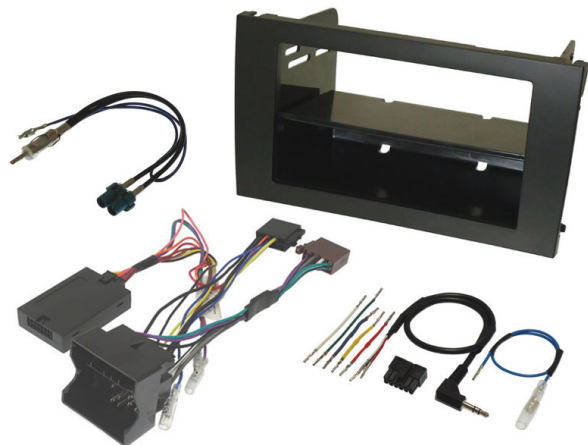

Complete fitting kit to install a single or double DIN head unit in an Audi A4 B7 with amplified rear speakers.

This kit includes:

- Fascia
- CAN ignition interface
- Quadlock to ISO harness
- Antenna adapter

FK-314-SWC

Audi A4 B7 fitting kit, SWC rear amplified

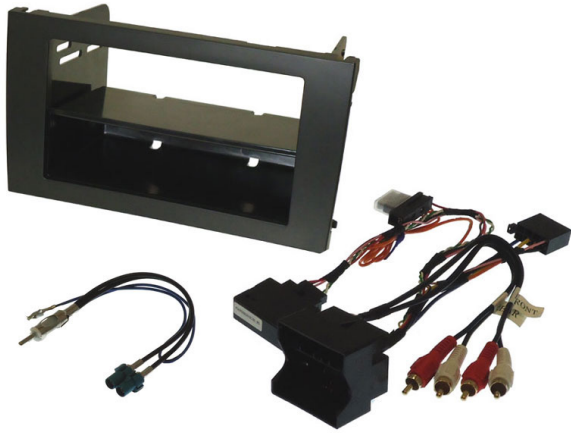

Complete fitting kit to install a single or double DIN head unit and retain the original steering wheel controls in an Audi A4 B7 with amplified rear speakers

This kit includes:

- Fascia
- Steering wheel control interface
- Universal patch lead
- Antenna adapter

FK-314FA-IGN

Audi A4 B7 fitting kit fully amp CAN ignition

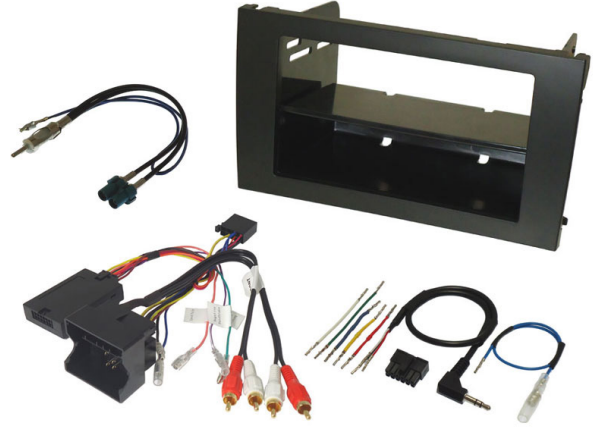

Complete fitting kit to install a single or double DIN head unit in an Audi A4 B7 with fully amplified speakers.

- This kit includes:
- Fascia
 - CAN ignition interface
 - Quadlock to ISO harness
 - Antenna adapter

FK-314FA-SWC

Audi A4 B7 fitting kit, SWC fully amplified

Complete fitting kit to install a single or double DIN head unit and retain the original steering wheel controls in an Audi A4 B7 with fully amplified speakers

- This kit includes:
- Fascia
 - Steering wheel control interface
 - Universal patch lead
 - Antenna adapter

FK-322FA-IGN

Audi TT 8J fitting kit fully amp CAN ignition

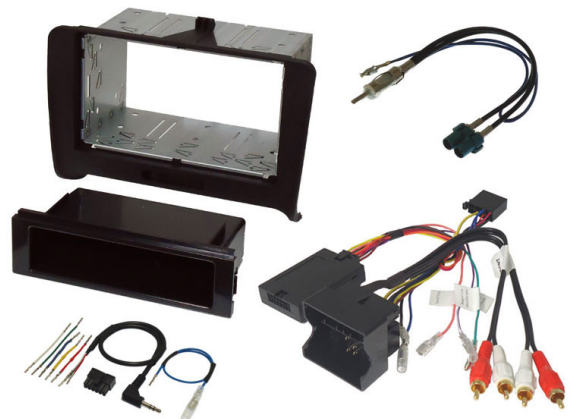

Complete fitting kit to install a single or double DIN head unit in an Audi TT 8J with fully amplified speakers.

- This kit includes:
- Fascia
 - CAN ignition interface
 - Quadlock to ISO harness
 - Antenna adapter
 - Double din fitting cage

FK-322FA-SWC

Audi TT 8J fitting kit, SWC fully amplified

Complete fitting kit to install a single or double DIN head unit and retain the original steering wheel controls in an Audi TT 8J with fully amplified speakers

- This kit includes:
- Fascia
 - Steering wheel control interface
 - Universal patch lead
 - Antenna adapter
 - Double din fitting cage

FK-702FA-IGN

Audi A3 8P fitting kit fully amp CAN ignition

Complete fitting kit to install a single or double DIN head unit in an Audi A3 8P with fully amplified speakers.

This kit includes:

- Fascia
- CAN ignition interface
- ISO adapter harness
- Antenna adapter

FK-115-Q

BMW E39 5 series single din fitting kit quadlock

Complete fitting kit to install a single DIN head unit and retain the original steering wheel controls in a BMW 5 series E39 with the quadlock connector at the back of the radio.

This kit includes:

- Fascia
- Antenna adapter
- Steering wheel control interface
- Universal patch lead

FK-115-R

BMW E39 5 series single din fitting kit round pin

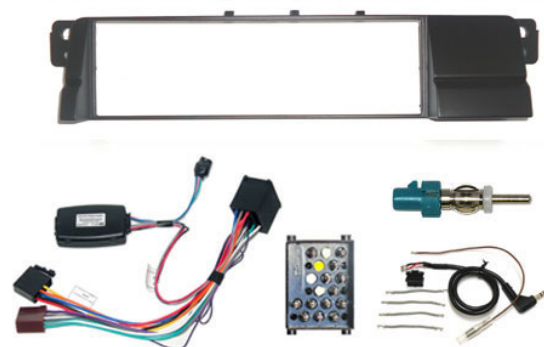

Complete fitting kit to install a single DIN head unit and retain the original steering wheel controls in a BMW 5 series E39 with the round pin connector at the back of the radio.

This kit includes:

- Fascia
- Antenna adapter
- Steering wheel control interface
- Universal patch lead

FK-116

BMW E46 single din SWC fitting kit

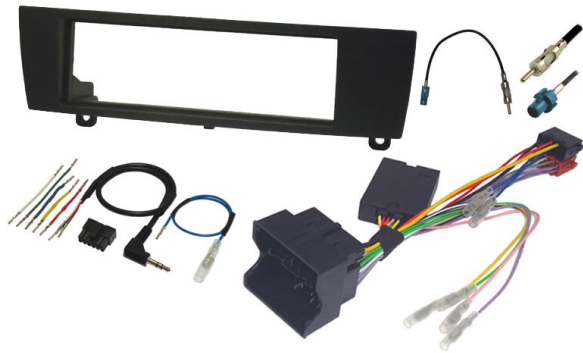

Complete fitting kit to install a single DIN head unit and retain the original steering wheel controls in a BMW 3 series E46

This kit includes:

- Fascia
- Antenna adapter
- Steering wheel control interface
- Universal patch lead

FK-118
BMW E90/E80 single din SWC fitting kit

Complete fitting kit to install a single DIN head unit and retain the original steering wheel controls

This kit includes:

- Fascia
- Antenna adapter
- Steering wheel control interface
- Universal patch lead

FK-118-PDC
BMW E90/E80 single din fitting SWC PDC

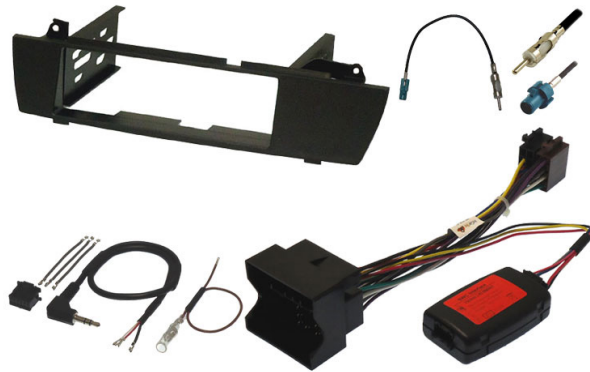

Complete fitting kit to install a single DIN head unit and retain the original steering wheel controls and parking sensors

This kit includes:

- Fascia
- Antenna adapter
- Steering wheel control interface
- Universal patch lead
- PDC interface

FK-270
BMW X3 single din fitting kit with SWC

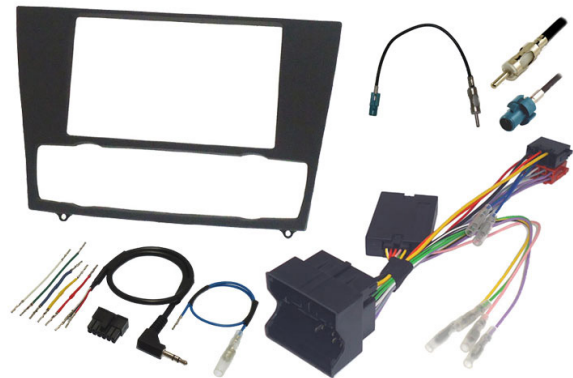

Complete fitting kit to install a single head unit in to a BMW X3 E83.

This kit includes:

- Fascia
- Steering control interface
- Universal patch lead
- Antenna adapter

FK-746/1
BMW E90 double din fitting kit SWC

Complete fitting kit to install a double DIN head unit and retain the original steering wheel controls in a BMW 3 Series E90

This kit includes:

- Fascia
- Steering wheel control interface
- Universal patch lead
- Antenna adapter

FK-746/2

BMW E90 double din fitting kit SWC & PDC

Complete fitting kit to install a double DIN head unit and retain the original steering wheel controls in a BMW 3 Series E90 and retain the original parking sensors.

This kit includes:

- Fascia
- Steering wheel control interface
- Universal patch lead
- Antenna adapter
- PDC retention interface

FK-746/3

BMW E90 fitting kit SWC, PDC & switch relocation

Complete fitting kit to install a double DIN head unit and retain the original steering wheel controls in a BMW 3 Series E90 and retain the original parking sensors. This kit also retains the use of the original heated seat and start stop switches.

This kit includes:

- Fascia
- Steering wheel control interface
- Universal patch lead
- Antenna adapter
- PDC retention interface
- Switch relocation kit

FK-769-Q

BMW E39 5 series double din fitting kit quadlock

Complete fitting kit to install a double DIN head unit and retain the original steering wheel controls in a BMW 5 series E39 with the quadlock connector at the back of the radio.

This kit includes:

- Fascia
- Antenna adapter
- Steering wheel control interface
- Universal patch lead

FK-769-R

BMW E39 5 series double din fitting kit round pin

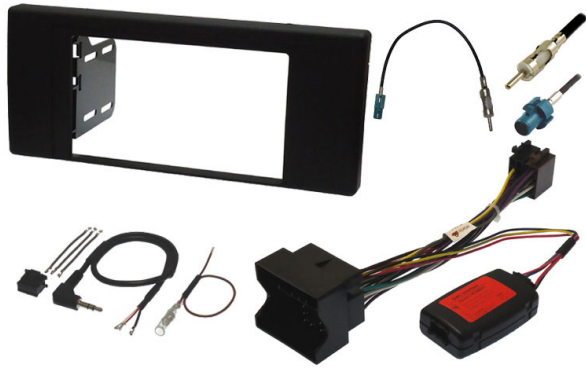

Complete fitting kit to install a double DIN head unit and retain the original steering wheel controls in a BMW 5 series E39 with the round pin connector at the back of the radio.

This kit includes:

- Fascia
- Antenna adapter
- Steering wheel control interface
- Universal patch lead

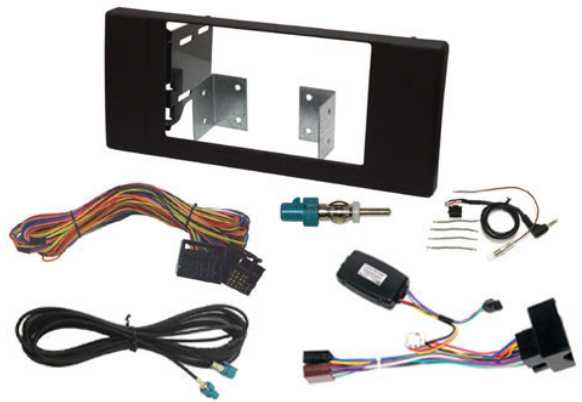

FK-770
BMW X5 E53 Double DIN SWC fitting kit

Complete fitting kit to install a double DIN head unit and retain the original steering wheel controls in a BMW X5 E53

- This kit includes:
- Fascia
 - Steering wheel control interface
 - Universal patch lead
 - Antenna adapter

FK-770-NAV
BMW X5 E53 Double DIN SWC fitting kit

Complete fitting kit to install a double DIN head unit and retain the original steering wheel controls in a BMW X5 E53

- This kit includes:
- Fascia
 - Steering wheel control interface
 - Universal patch lead
 - Antenna adapter
 - Antenna extension
 - Quadlock extension

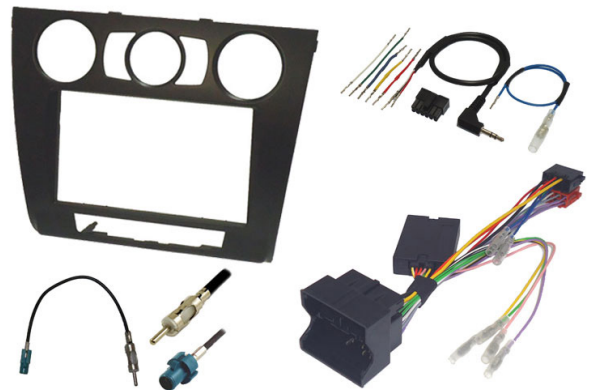

FK-777
BMW 3 series E46 double din kit SWC and tray

Complete fitting kit to install a double DIN head unit and retain the original steering wheel controls in a BMW X5 E53

- This kit includes:
- Fascia
 - Steering wheel control interface
 - Universal patch lead
 - Antenna adapter

FK-883
BMW 1 Series SWC fitting kit manual air con

Complete fitting kit to install a double DIN head unit and retain the original steering wheel controls in a BMW 1 Series with original manual climate controls.

- This kit includes:
- Fascia
 - Steering wheel control interface
 - Universal patch lead
 - Antenna adapter

FK-883-PDC

BMW 1 Series SWC PDC fitting kit manual air

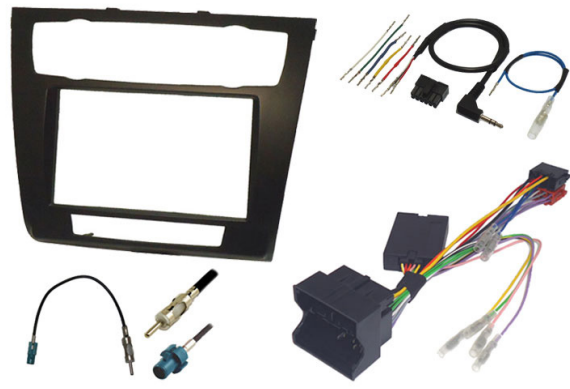

Complete fitting kit to install a double DIN head unit and retain the original steering wheel controls and parking sensors in a BMW 1 Series with original manual climate controls.

This kit includes:

- Fascia
- Steering wheel control interface
- Universal patch lead
- Antenna adapter
- Parking sensor retention interface

FK-889

BMW 1 Series SWC fitting kit auto air con

Complete fitting kit to install a double DIN head unit and retain the original steering wheel controls in a BMW 1 Series with original automatic climate controls.

This kit includes:

- Fascia
- Steering wheel control interface
- Universal patch lead
- Antenna adapter

FK-889-PDC

BMW 1 Series SWC PDC fitting kit auto air

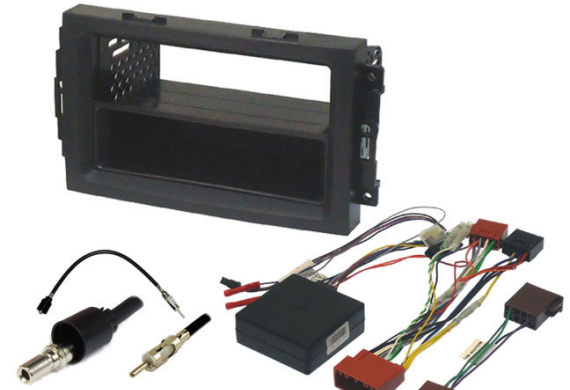

Complete fitting kit to install a double DIN head unit and retain the original steering wheel controls and parking sensors in a BMW 1 Series with original automatic climate controls.

This kit includes:

- Fascia
- Steering wheel control interface
- Universal patch lead
- Antenna adapter
- Parking sensor retention interface

FK-304

Chrysler, Dodge, Jeep 05-08 fitting DIN kit

Complete fitting kit solution to install an after market single or double din unit into Chrysler, Dodge or Jeep vehicles.

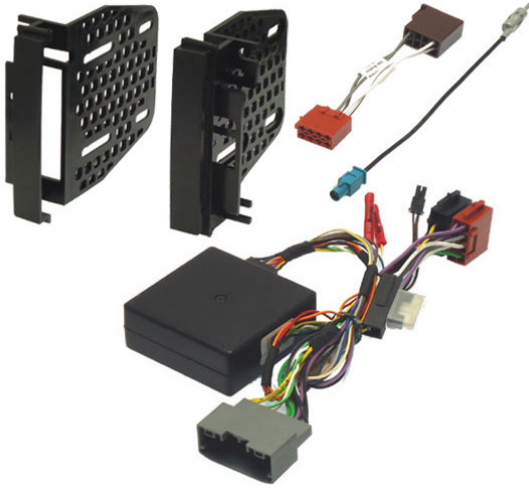

Kit contents

- Single and double din fascia
- Steering control and amplifier retention interface
- Antenna adapter

NOTE: An additional patch lead is required for the steering controls.

FK-720

Chrysler, Dodge, Jeep 08> double DIN kit

Complete fitting kit solution to install an after market double din unit into Chrysler, Dodge or Jeep vehicles.

Kit contents

- Double din fascia
- Steering control and amplifier retention interface
- Antenna adapter.

NOTE: An additional patch lead is required for the steering controls.

FK-259

Fiat Grande Punto 06-10 complete fitting kit

Complete fitting kit to change the original radio in a 2006-2010 Fiat Grande Punto for a single din after market unit.

Kit includes:

- Fascia
- Steering control interface
- Patch lead
- AM/FM antenna adapter

FK-130

Ford Escort, Transit Fitting kit (no SWC)

Complete fitting kit to install a single DIN head unit

This kit includes:

- Fascia
- Antenna adapter
- ISO harness
- Release keys

FK-130-SWC

Ford single din SWC fitting kit

Complete fitting kit to install a single DIN head unit and retain the original steering wheel controls

This kit includes:

- Fascia
- Antenna adapter
- Steering wheel control interface
- Universal patch lead
- Release keys

FK-135

Ford Fiesta Focus, Mondeo fitting kit (no SWC)

Complete fitting kit to install a single din head unit to Ford cars WITHOUT Steering wheel controls

This kit includes:

- Fascia
- Antenna adapter
- ISO harness
- Release keys

FK-135-SWC

Ford Focus, Mondeo SWC fitting kit

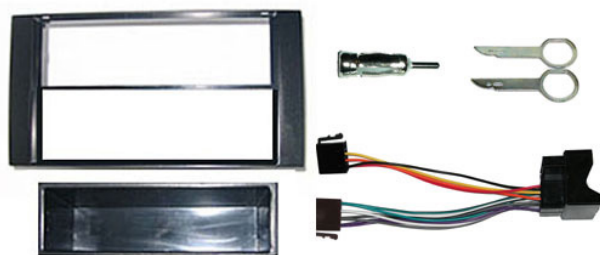

Complete fitting kit to install a single DIN head unit and retain the original steering wheel controls

This kit includes:

- Fascia
- Antenna adapter
- Steering wheel control interface
- Universal patch lead
- Release keys

FK-214

Ford Focus Mk2, Transit HU fitting kit

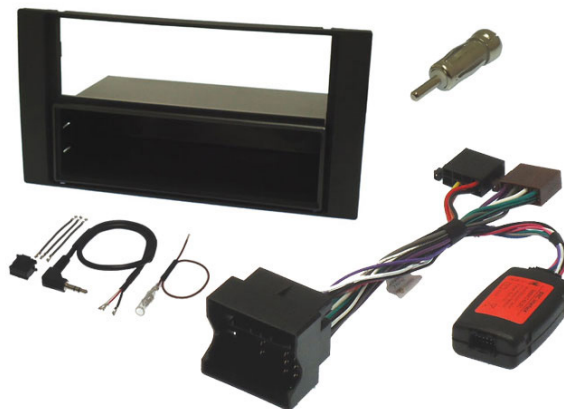

Complete fitting kit to install a single or double DIN head unit in to a Ford car with square radio and Quadlock connector

This kit includes:

- Fascia
- ISO harness
- Antenna adapter
- Release keys

FK-214-SWC

Ford single and double din SWC fitting kit

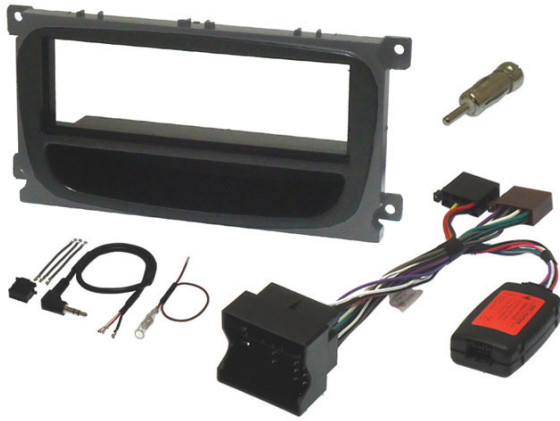

Complete fitting kit to install a single or double DIN head unit and retain the original steering wheel controls in Ford cars

This kit includes:

- Fascia
- Antenna adapter
- Steering wheel control interface
- Universal patch lead
- Release keys

FK-316

Ford single din fitting kit with steering controls

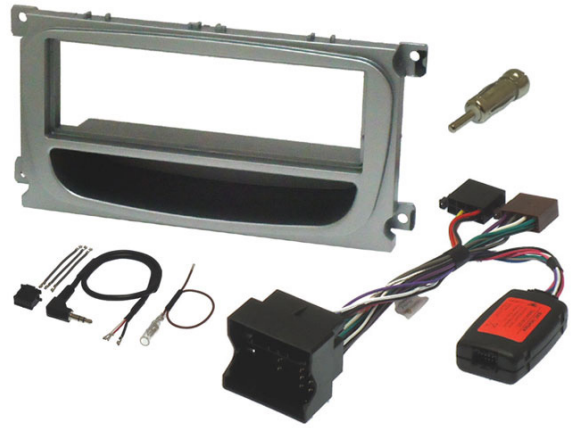

Complete fitting kit to install a single DIN head unit and retain the original steering wheel controls in Ford cars with the original oval shape radio.

This kit includes:

- Fascia
- Antenna adapter
- Steering wheel control interface
- Universal patch lead

FK-316/1

Ford single din fitting kit with steering controls

Complete fitting kit to install a single DIN head unit and retain the original steering wheel controls in Ford cars with the original oval shape radio.

This kit includes:

- Fascia - silver
- Antenna adapter
- Steering wheel control interface
- Universal patch lead

FK-876

Ford double din fitting kit with steering controls

Complete fitting kit to install a double DIN head unit and retain the original steering wheel controls in Ford cars with the original oval shape radio.

This kit includes:

- Fascia and cage fitting kit
- Antenna adapter
- Steering wheel control interface
- Universal patch lead

FK-876/1

Ford double din fitting kit with steering controls

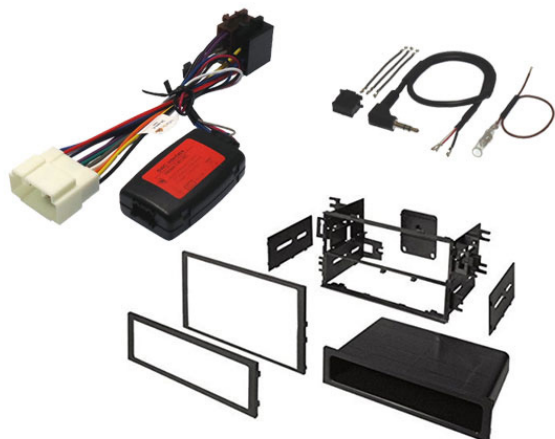

Complete fitting kit to install a double DIN head unit and retain the original steering wheel controls in Ford cars with the original oval shape radio.

This kit includes:

- Fascia and cage fitting kit - silver
- Antenna adapter
- Steering wheel control interface
- Universal patch lead

FK-215
Honda CR-V 01-06 complete fitting kit

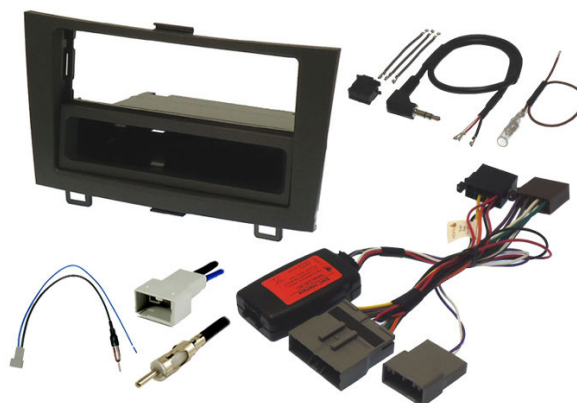

Complete fitting kit to change the original radio in a 2001-2006 Honda CR-V for a single or double din after market unit.

Kit includes:

- Fascia with brackets and pocket
- Steering control interface
- Patch lead

FK-330
Honda CR-V 2007-2011 complete fitting kit

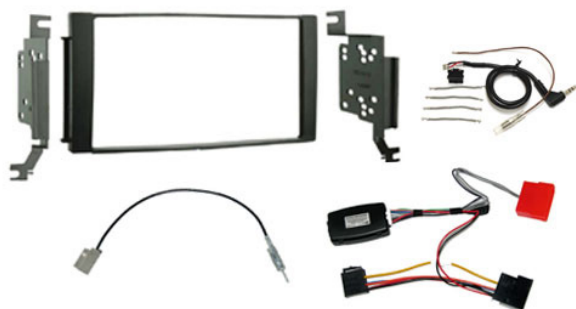

Complete fitting kit to change the original radio in a 2007-2011 Honda CR-V for a single or double din after market unit.

Kit includes:

- Fascia with brackets and pocket
- Steering control interface
- Patch lead
- AM/FM antenna adapter

FK-719
Hyundai Santa Fe 09-12 SWC fitting kit

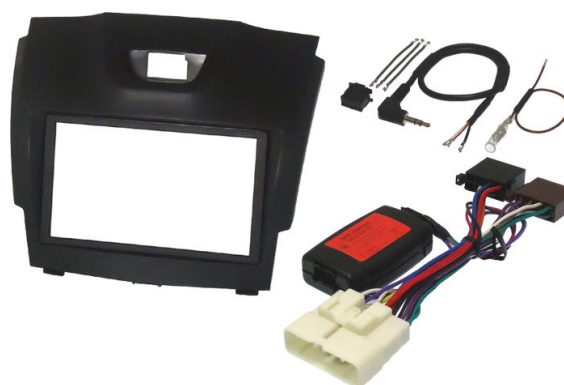

Complete fitting kit to install a double DIN head unit and retain the original steering wheel controls in a 09-12 Hyundai Santa Fe

This kit includes:

- Fascia
- Steering wheel control interface
- Universal patch lead
- Antenna adapter

FK-799
Isuzu D-Max double DIN SWC fitting kit black

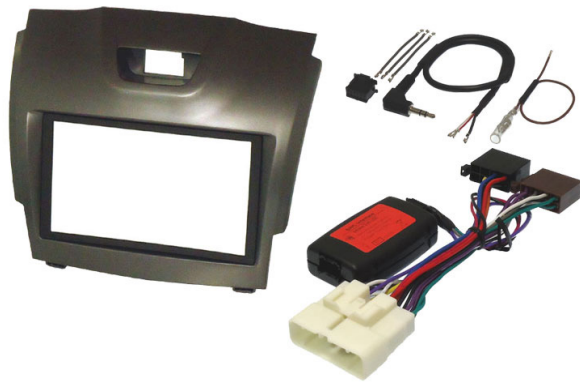

Complete fitting kit to install a double DIN head unit and retain the original steering wheel controls in an Isuzu D-Max

This kit includes:

- Fascia (black)
- Steering wheel control interface
- Universal patch lead

FK-799/1

Isuzu D-Max double DIN SWC fitting kit grey

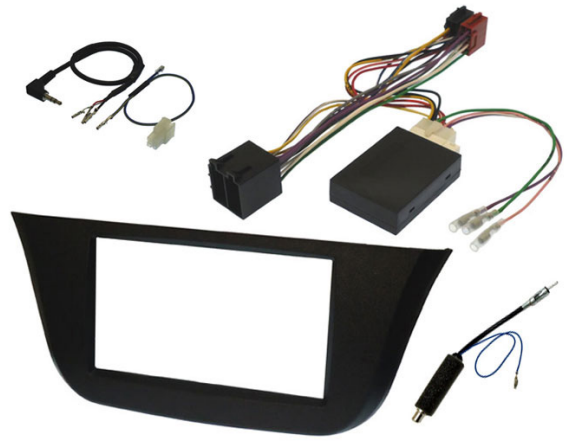

Complete fitting kit to install a double DIN head unit and retain the original steering wheel controls in an Isuzu D-Max

This kit includes:

- Fascia (grey/gun metal)
- Steering wheel control interface
- Universal patch lead

FK-944

Iveco Daily 2014> complete fitting kit

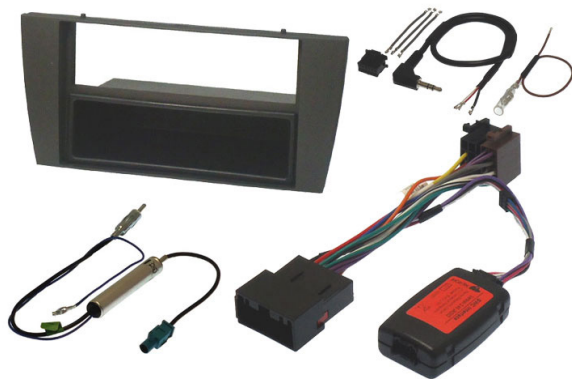

Complete fitting kit to change the original radio in a 2014 onwards Iveco Daily for a double din after market unit.

Kit includes:

- Fascia with brackets
- Steering control interface
- Patch lead
- AM/FM antenna adapter

FK-263

Jaguar X/S Type SWC fitting kit

Complete fitting kit to install a single or double DIN head unit and retain the original steering wheel controls in a Jaguar S or X Type

This kit includes:

- Fascia
- Steering wheel control interface
- Universal patch lead
- Antenna adapter

FK-394-1

Jaguar XK8 96-99 standard audio fitting kit

Complete fitting kit to install an aftermarket single din head unit into a 1996-1999 model Jaguar XK8 convertible and coupe with original standard audio.

Kit includes,

- Fascia
- Steering wheel control interface
- Steering control interface patch lead

FK-394-2

Jaguar XK8 96-99 premium audio fitting kit

Complete fitting kit to install an aftermarket single din head unit into a 1996-1999 model Jaguar XK8 convertible and coupe with original premium audio.

- Kit includes,
- Fascia
 - Steering wheel control interface
 - Amplifier adapter
 - Steering control interface patch lead

FK-394-3

Jaguar XK8 00-05 standard audio fitting kit

Complete fitting kit to install an aftermarket single din head unit into a 2000-2005 model Jaguar XK8 convertible and coupe with original standard audio.

- Kit includes,
- Fascia
 - Steering wheel control interface
 - Steering control interface patch lead

FK-394-4

Jaguar XK8 00-05 convertible premium audio kit

Complete fitting kit to install an aftermarket single din head unit into a 2000-2005 model Jaguar XK8 convertible with original premium audio.

- Kit includes,
- Fascia
 - Steering wheel control interface
 - Steering control interface patch lead
 - Amplifier bypass cable

FK-394-5

Jaguar XK8 00-05 coupe premium audio kit

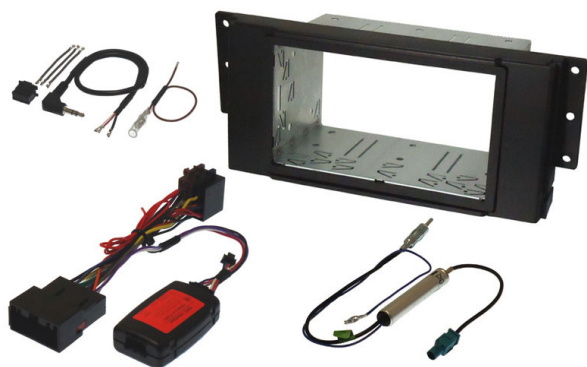

Complete fitting kit to install an aftermarket single din head unit into a 2000-2005 model Jaguar XK8 coupe with original premium audio.

- Kit includes,
- Fascia
 - Steering wheel control interface
 - Steering control interface patch lead
 - Amplifier bypass cable

FK-853-1

Land Rover fitting kit basic audio FL2, DIS3, RRS

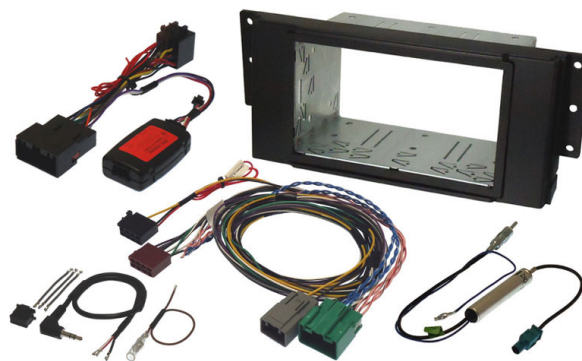

Complete fitting kit to change the original radio in a Freelander 2, Discovery 3 or a Range Rover Sport with original standard radio and basic audio system for a double din after market unit.

Kit includes:

- Fascia
- Fitting cage
- Steering control interface
- Patch lead
- Antenna adapter

FK-853-2

Land Rover fitting kit Harman/Kardon audio

Complete fitting kit to change the original radio in a Discovery 3 or a Range Rover Sport with original Harman/Kardon amplified audio system (not LOGIC7 system) and without the touch screen navigation for a double din after market unit.

Kit includes:

- Fascia
- Fitting cage
- Steering control interface
- Patch lead
- Antenna adapter
- Amplifier bypass cable

FK-853-3

RR Sport/Discovery 3 fitting with screen retention

Complete fitting kit to change the original radio in a Range Rover Sport or Discovery 3 with original Harman/Kardon amplified audio system (not LOGIC7) for a double din aftermarket unit and also retain the use of the original nav/vehicle info display screen.

Kit includes:

- Fascia
- Fitting cage
- Steering control interface
- Patch lead
- Antenna adapter
- Amplifier bypass cable
- Fibre optic extension cable
- Head unit relocation cable

FK-853-4

Freelander 2 fitting kit basic audio with PDC

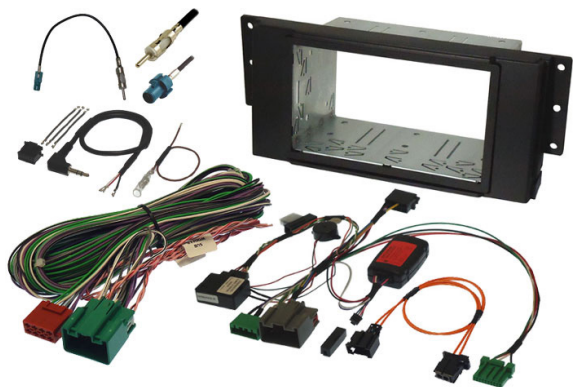

Complete fitting kit to change the original radio in a Freelander 2 with basic audio system for a double din after market unit and retain the original parking sensor tones.

Kit includes:

- Fascia
- Fitting cage
- Steering control interface
- Patch lead
- Antenna adapter
- Parking sensor retention interface

FK-853-5
Freelander 2 fitting kit Alpine Premium with PDC

Complete fitting kit to change the original radio in a Freelander 2 with original Alpine Premium sound system for a double din after market unit and retain the original parking sensor tones.

Kit includes:

- Fascia
- Fitting cage
- Steering control interface
- Patch lead
- Antenna adapter
- Parking sensor retention interface
- Amplifier bypass cable
- Fibre optic extension
- Fibre optic coupler

FK-180
Mercedes C Class, CLK, Vito, Viano fitting kit

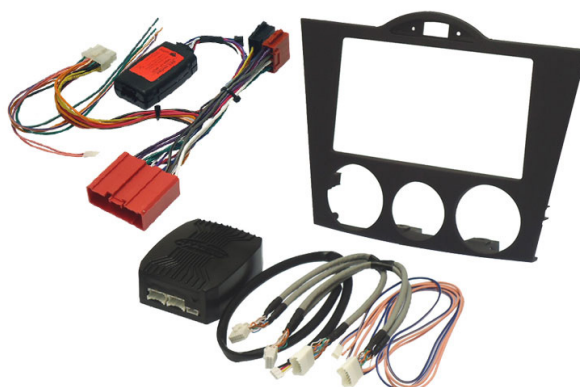

Complete fitting kit to change the original radio in Mercedes vehicles for a single or double din after market unit.

Kit includes:

- Fascia
- Steering control interface
- Patch lead
- Antenna adapter

FK-744
Mazda RX8 04-08 double din fitting kit with SWC

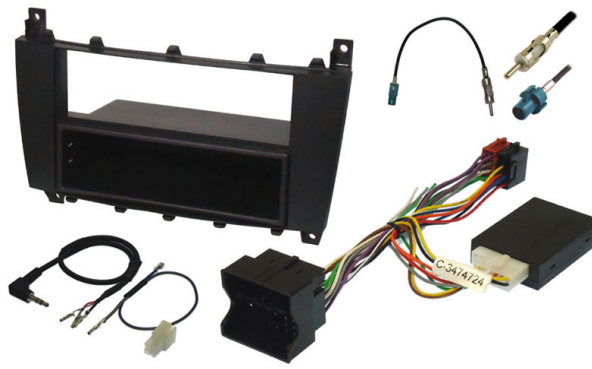

Complete fitting kit to install a double din aftermarket unit in a 2004-2008 model Mazda RX8. This kit will retain the use of the climate controls and the steering wheel audio controls.

This kit includes:

- Fascia
- Steering control interface
- Universal patch lead
- ISO harness
- Climate control retention interface

FK-238
Mercedes C Class fitting kit

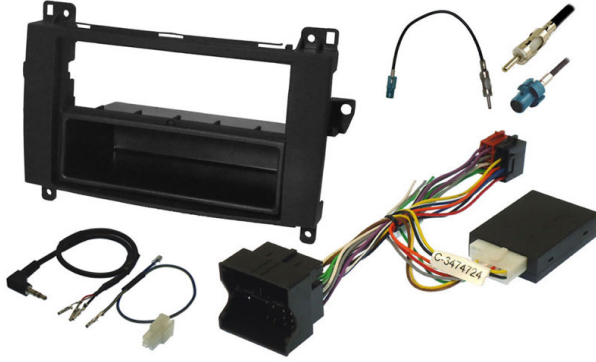

Complete fitting kit to change the original radio in Mercedes vehicles for a single or double din after market unit.

Kit includes:

- Fascia
- Steering control interface
- Patch lead
- Antenna adapter

FK-257

Mercedes A, B, Vito, Viano, Sprinter fitting kit

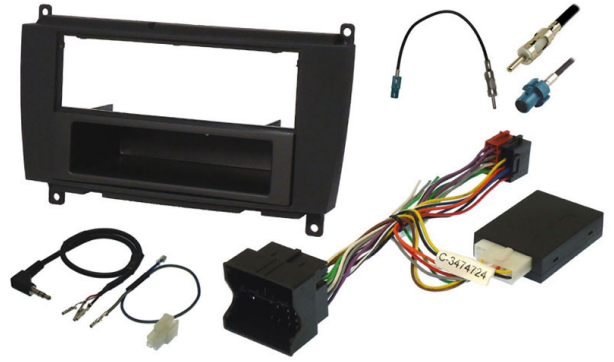

Complete fitting kit to change the original radio in Mercedes vehicles for a single or double din after market unit.

Kit includes:

- Fascia
- Steering control interface
- Patch lead
- Antenna adapter

FK-258

Mercedes CLK W209 facelift fitting kit

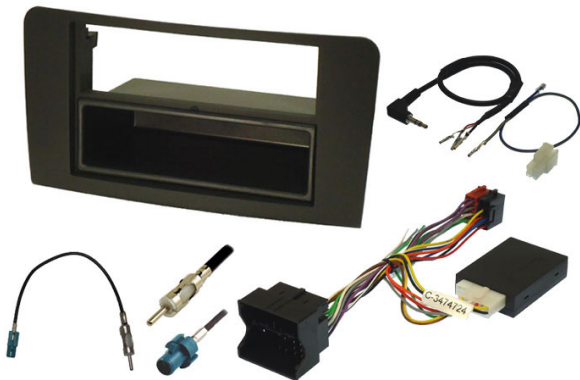

Complete fitting kit to change the original radio in Mercedes CLK W209 facelift vehicles for a single or double din after market unit.

Kit includes:

- Fascia
- Steering control interface
- Patch lead
- Antenna adapter

FK-293

Mercedes ML 2005> complete fitting kit

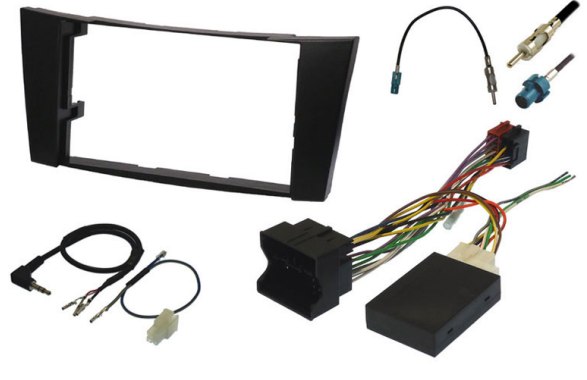

Complete fitting kit to change the original radio in a Mercedes ML vehicle for a single or double din after market unit.

Kit includes:

- Fascia
- Steering control interface
- Patch lead
- Antenna adapter

FK-710

Mercedes E Class fitting kit

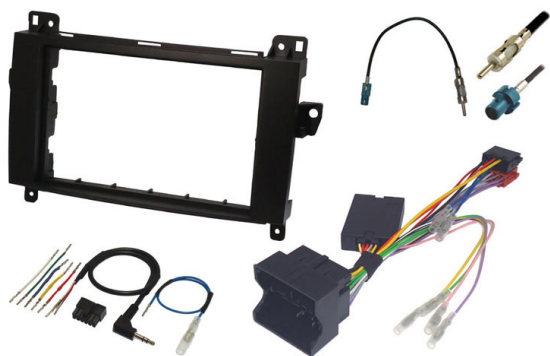

Complete fitting kit to change the original radio in Mercedes E Class vehicles for a single or double din after market unit.

Kit includes:

- Fascia
- Steering control interface
- Patch lead
- Antenna adapter

FK-711 Mercedes Vito 2015> fitting kit

Complete fitting kit to change the original radio in Mercedes vehicles for a double din after market unit.

Kit includes:

- Fascia
- Steering control interface
- Patch lead
- Antenna adapter

FK-921 Mercedes C Class W204 fitting kit

Complete fitting kit to change the original radio in Mercedes vehicles for a double din after market unit. FOR VEHICLES WITHOUT SWITCHES BELOW THE RADIO.

Kit includes:

- Fascia
- Steering control interface
- Patch lead
- Antenna adapter

FK-921/1 Mercedes C Class W204 facelift fitting kit

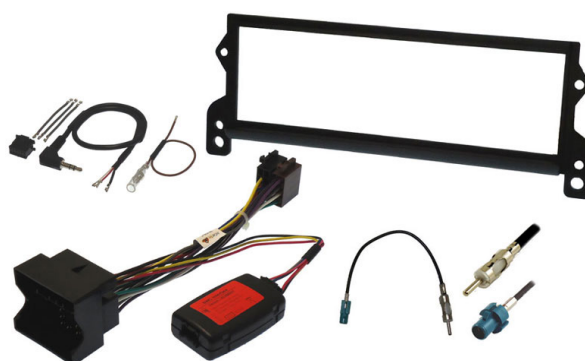

Complete fitting kit to change the original radio in Mercedes vehicles for a double din after market unit. For vehicles that have switches below the original radio.

Kit includes:

- Fascia with switch relocation panel
- Steering control interface
- Patch lead
- Antenna adapter

FK-117-B Mini 01-06 complete fitting kit (Boost CD radio)

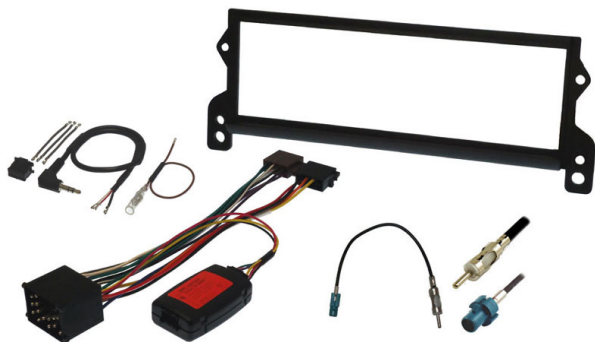

Complete fitting kit to change the original radio in a 2001 to 2006 Mini Cooper or Mini One with original Boost CD radio for an aftermarket unit.

Kit includes:

- Fascia

FK-256

Nissan 350Z <2006 BOSE SWC fitting kit

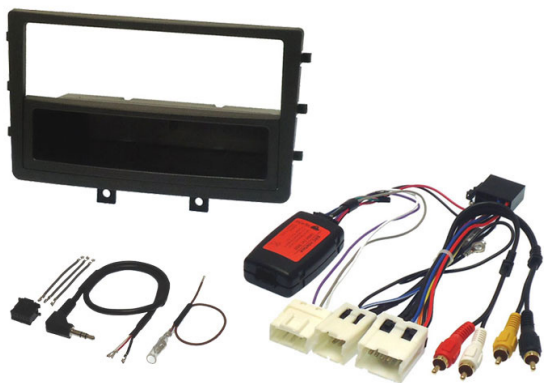

Complete fitting kit to install a double DIN head unit and retain the original steering wheel controls in a pre 2006 Nissan 350Z

This kit includes:

- Double DIN fascia
- Steering wheel control interface
- Phono connection for BOSE
- Universal patch lead

FK-306

Nissan 350Z 06> BOSE SWC fitting kit

Complete fitting kit to install a single or double DIN head unit and retain the original steering wheel controls in a 2006> Nissan 350Z

This kit includes:

- Fascia
- Steering wheel control interface
- Universal patch lead

FK-311

SAAB 93 (06>) Complete head unit fitting kit

Complete fitting kit solution to install an after market double din unit into a Saab 9-3 2006 onwards.

Kit contents

- Double din fascia cage kit
- Steering control interface
- Amplifier retention interface
- Antenna adapter.

NOTE: An additional patch lead is required for the steering controls depending on the make or radio being fitted.

FK-727
Subaru Impreza 06-11 SWC fitting kit

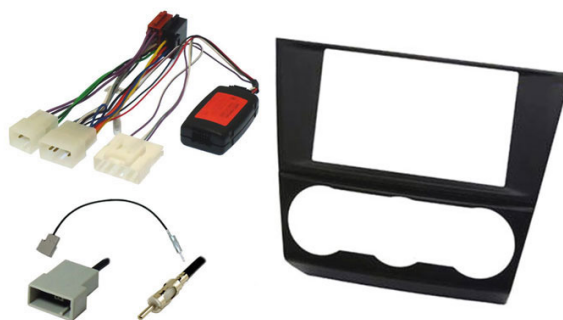

Complete fitting kit to install a double DIN head unit and retain the original steering wheel controls in a 06-11 Subaru Impreza

This kit includes:

- Fascia
- Steering wheel control interface
- Universal patch lead
- Antenna adapter

FK-908
Subaru Forester 2015> complete fitting kit

Complete fitting kit to install an aftermarket double din head unit into a 2015> model Subaru Forester.

Kit includes,

- Fascia
- Steering wheel control interface
- Steering control interface patch lead
- Antenna adapter

FK-282
Toyota double din fitting kit w/ steering controls

Complete fitting kit to install a double DIN head unit

This kit includes:

- Fascia
- Steering control interface
- Universal patch lead

FK-2302
Vauxhall CANbus single din SWC silver fitting kit

Complete fitting kit to install a single DIN head unit and retain the original steering wheel controls

This kit includes:

- Fascia
- Antenna adapter
- Steering wheel control interface
- Universal patch lead
- Release keys

FK-2302-C

Vauxhall Corsa D single din SWC silver fitting kit

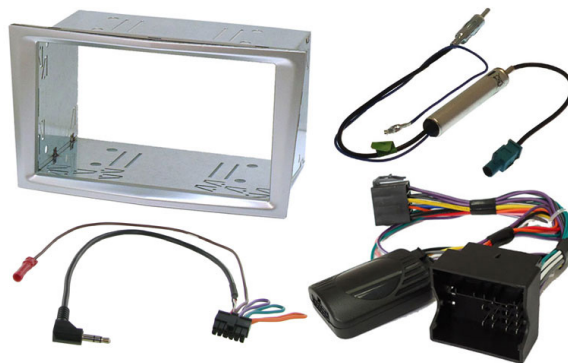

Complete fitting kit to install a single DIN head unit and retain the original steering wheel controls in a Vauxhall Corsa D.

This kit includes:

- Fascia
- Antenna adapter
- Steering wheel control interface
- Universal patch lead
- Release keys

FK-8412

Vauxhall double din fitting kit with SWC - Silver

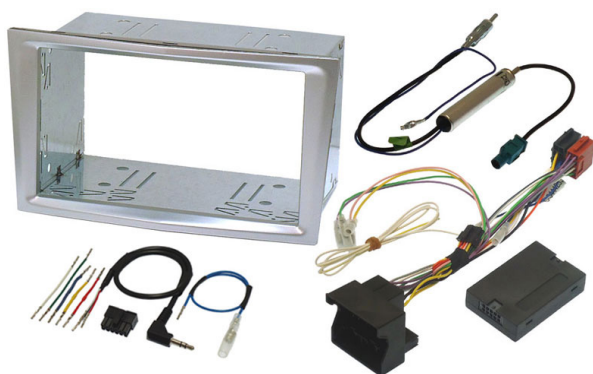

Complete fitting kit to install a double DIN head unit and retain the original steering wheel controls

This kit includes:

- Fascia
- Antenna adapter
- Steering wheel control interface
- Universal patch lead
- Release keys
- Double DIN fitting cage

FK-8412-C

Vauxhall Corsa D double din SWC fitting kit silver

Complete fitting kit to install a double DIN head unit and retain the original steering wheel controls in a Vauxhall Corsa D.

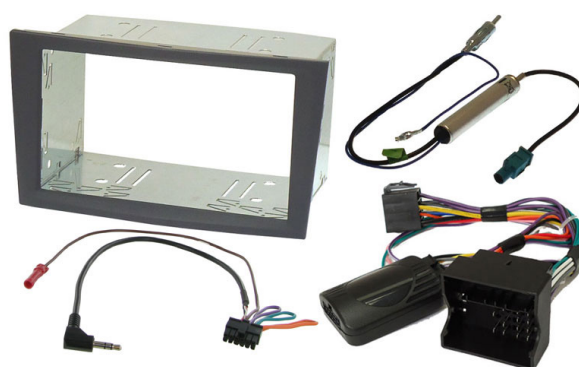

The steering control interface will also generate a true key present ignition supply to the new head unit.

This kit includes:

- Fascia - silver
- Antenna adapter
- Steering wheel control interface
- Universal patch lead
- Release keys
- Double DIN fitting cage

FK-8413

Vauxhall double din kit w/ SWC - Charcoal matt

Complete fitting kit to install a double DIN head unit and retain the original steering wheel controls

This kit includes:

- Fascia - matt charcoal (rubber touch)
- Antenna adapter
- Steering wheel control interface
- Universal patch lead
- Release keys
- Double DIN fitting cage

FK-8413-C

Vauxhall Corsa D double din kit SWC matt charcoal

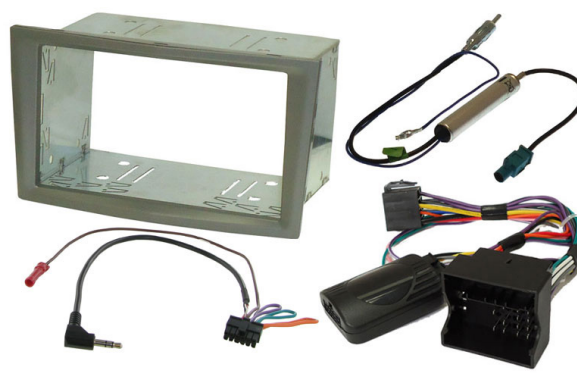

Complete fitting kit to install a double DIN head unit and retain the original steering wheel controls in a Vauxhall Corsa D. The steering control interface will also generate a true key present ignition supply to the new head unit.

This kit includes:

- Fascia - matt charcoal (rubber touch)
- Antenna adapter
- Steering wheel control interface
- Universal patch lead
- Release keys
- Double DIN fitting cage

FK-8414

Vauxhall double din kit w/ SWC - Charcoal metallic

Complete fitting kit to install a double DIN head unit and retain the original steering wheel controls

This kit includes:

- Fascia - Charcoal metallic
- Antenna adapter
- Steering wheel control interface
- Universal patch lead
- Release keys
- Double DIN fitting cage

FK-8414-C

Vauxhall Corsa D d.din kit SWC charcoal metallic

Complete fitting kit to install a double DIN head unit and retain the original steering wheel controls in a Vauxhall Corsa D. The steering control interface will also generate a true key present ignition supply to the new head unit.

This kit includes:

- Fascia - charcoal metallic
- Antenna adapter
- Steering wheel control interface
- Universal patch lead
- Release keys
- Double DIN fitting cage

FK-8415

Vauxhall CANbus double din SWC gloss black kit

Complete fitting kit to install a double DIN head unit and retain the original steering wheel controls

This kit includes:

- Fascia - gloss black
- Antenna adapter
- Steering wheel control interface
- Universal patch lead
- Release keys
- Double DIN fitting cage

FK-8415-C

Vauxhall Corsa D double din SWC gloss black kit

Complete fitting kit to install a double DIN head unit and retain the original steering wheel controls in a Vauxhall Corsa D.

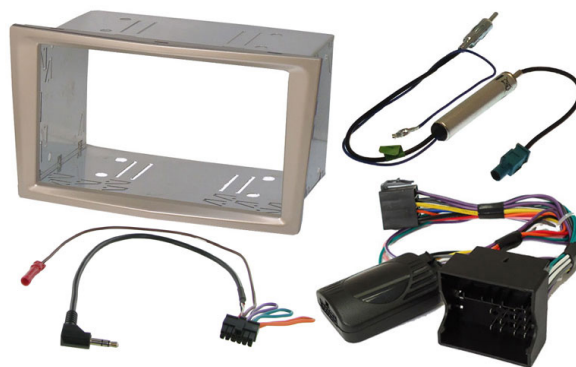

The steering control interface will also generate a true key present ignition supply to the new head unit.

This kit includes:

- Fascia - gloss black
- Antenna adapter
- Steering wheel control interface
- Universal patch lead
- Release keys
- Double DIN fitting cage

FK-8417

Vauxhall double din kit with SWC - Champagne beige

Complete fitting kit to install a double DIN head unit and retain the original steering wheel controls

This kit includes:

- Fascia - Champagne beige (satin stone)
