

Product Overview

The 10-155 is a 5 metre Quadlock power and speaker extension cable. It is used to extend the vehicle's Quadlock connection from the original radio or tuner location to the new head unit position.

Please Note

- Check that the vehicle uses a Quadlock connector before installation. This cable extends power and speaker wiring only.

Common locations:

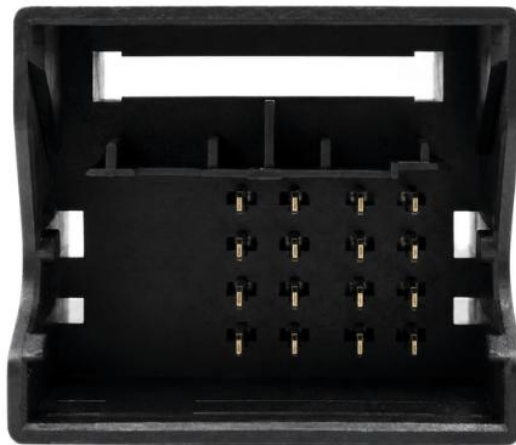

- Boot / trunk area

Tools Required

- Trim panel removal tools
- Phillips Screwdriver
- Cable ties
- Torch/ work light

Installation Steps

1. Switch off the ignition and remove the key.
2. Locate and disconnect the vehicle's Quadlock connector at the original radio or tuner location.
3. Plug the 10-155 cable between the two matching Quadlock connectors.
4. Route the cable to the required position, making sure it is not trapped, stretched, or near moving parts.
5. Secure the cable and refit any removed trim.

Testing

- Switch on the audio system.
- Check that the head unit powers up correctly.
- Check that all speakers are working.
- Use the balance and fader controls to confirm the speaker channels are operating correctly
