

This camera adapter lead allows you to add an aftermarket reverse camera to the original media head unit. This adapter lead is suitable for Iveco Daily vans fitted with original IVEConnect media head units . This adapter lead provides a phono video input connection for an aftermarket reverse camera.

### Installation Instructions

This adapter cable fits behind the cd unit at the bottom of the dashboard. The adapter leads needs to be connected into pins 2 and 8 in section C of the quadlock connector at the back of the radio. If there are wires present, these need to be removed and replaced with the 27-257.

Pin the signal wire (RED) to PIN 2 and the ground wire (BLACK) to PIN 8.

### Reverse Camera Setup

With the camera and adapter lead connected, select **APPLICATIONS** on the home screen, then **UTILITIES and VIDEO CAMERA**. Select **AUTO**, then make sure **Camera 1 automatic mode is highlighted**.
