ID5 OR ID6?

The easiest way of being able to identify whether it is an ID5 or ID6 system is by looking at the design of the main menu screen.

ID5

The ID5 main screen consists of a series of horizontal tiles, with a zoom effect on the tile selected (See left image)

ID6

The ID6 main screen consists of a series of horizontal tiles on a grey and black background, with a red/ orange gradient highlighting the selected feature
