<sup>\*</sup> Without 7-inch touchscreen radio

## INTERFACE COMPONENTS

AXBUCH-HK2 harness

## **TOOLS REQUIRED**

- Wire cutter Crimping tool Solder gun Tape
- Connectors (example: butt connectors, bell caps, etc.)

#### Connections to be made

The AXBUCH-HK2 can be connected two different ways

#### To retain the factory back-up camera to an aftermarket radio:

- · Connect the Black wire to chassis ground.
- · Connect the Red wire to accessory power.\*
- Connect the male Yellow RCA jack to the rear camera input of the aftermarket radio.
- \* It is highly recommended to use the AXCSD-6V (sold separately) to provide the camera with the proper voltage.

#### To allow an aftermarket camera to be added to the OEM screen:

- Connect the Black wire to the aftermarket cameras ground wire.
- Connect the power wire of the aftermarket camera to accessory power.
- Connect the female Yellow RCA jack to the aftermarket camera.
- Tape off and disregard the following (1) wire, it will not be used in this application: Red.

Note: If the Blue/Red wire is not populated on the factory side, a reverse wire will need to be sourced from the vehicle. A 48-inch loose Green/Purple wire is included for this purpose.

<sup>\*\*</sup> Without UVO radio
