Designed and  
Engineered  
in the UK.

## ABOUT

The Connects2 Infodapter for Vauxhall vehicles allows vehicle setting and parking sensor information to be displayed on any aftermarket head unit with rear camera input. The Infodapter also allows the use of the steering wheel controls with almost every steering wheel control compatible head unit on the market.

NB: Does not retain Onstar

## DIPSWITCH SETTINGS

See Fig 1.

Up = Off, Down = On

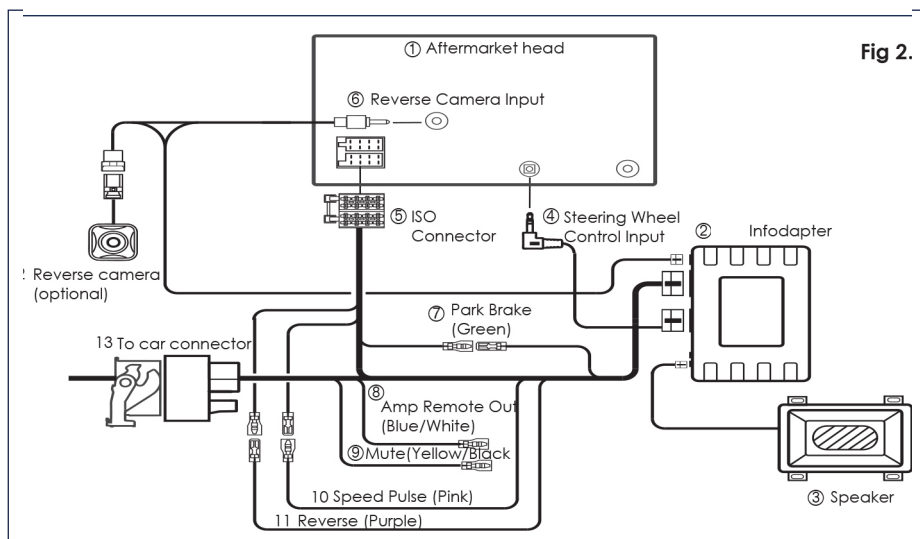

**1:** On = Pioneer head units. Off = All other head units

**2:** Setting for reverse camera. On = PAL, Off = NTSC. The default setting is Off (NTSC).

**3:** Resets the display settings back to default. If the display settings have been manipulated in a way that it is no longer possible to make adjustments, change the DIP switch #3 from Off to On and back. This will reset the screen settings to the factory defaults. During this procedure the screen background will change to red. While the background is red, no settings can be made.

**4:** Not applicable

## INTERFACE CONNECTIONS

# STEERING WHEEL CONTROLS

- **Infodapter Settings**

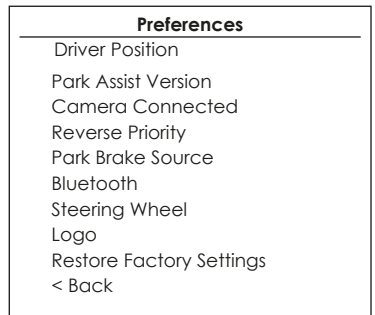

- Screen Size/Position - Make sure all 4 corner markers are touching the corners of the aftermarket head unit display.

- Picture Settings - Adjust Brightness, contrast and colour saturation.

- Preferences -

**Driver Position** - Select Left or Right depending on vehicle configuration

**Park Assist Version** - Select according to the colour configuration of the park assist fitted to the vehicle

**Camera Connected** - Select Yes if an optional camera is connected

**Reverse Priority\*** - Select which image (Camera or Park Assist) will be shown by default when reversing. The driver can select the desired image by pushing the Source button (Fig.3) while reversing. (\*Note: this option is only available when 'Camera Connected' is set to Yes)

**Park Brake Source** - Set to Speed, Brake or Always On

**Bluetooth** - Select On if aftermarket head unit has Bluetooth built in. Pick up/hang up buttons on the steering wheel will be enabled

**Steering Wheel** - Select 6 or 7 function type depending upon vehicle

**Logo\*** - Select for relevant vehicle or head unit brand logo to be shown on the dash display. (Note that this option will only appear for supported four line dash displays. OEM navigation is not supported)

**Restore Factory Settings** - Reverts all Infodapter settings to factory defaults (This not does restore vehicle settings)
